Le Fleuriste Nola

A Standing Presence

We start with a consultation to understand your space, your brand, and your rhythm. From there, we build a custom proposal — tier, scope, and cadence — and take it from there.

How It Works

The right space tells a story before a word is spoken. For hotels, restaurants, offices, and hospitality environments, that story is told in the details — and few details carry as much weight, or as much life, as flowers.

En Résidence — Business is our recurring floral subscription for commercial and hospitality accounts: a standing design presence, refreshed on a schedule built around your space.
